

The Site Welfare Company Limited
Environmental Policy
Introduction and Aim

The Site Welfare Company is dedicated to providing the highest quality portable sanitation and effluent services in England. We provide our services to commercial, industrial, residential, and special events customers.

The Site Welfare Company provides various types of portable sanitation products, temporary fencing to the domestic and commercial markets. Our reputation for reliability, expertise and commitment to customers is renowned within the construction industry.

We recognise the fact that some of our products can result in emissions to air and water, and result in the generation of waste. It is our aim to reduce the impact of our business to the environment and operate our business in an environmentally responsible manner.

Our environmental policy applies to all of our operations and offices, including management, staff and procurement.

We aim to:-

- Comply with all relevant environmental legislation, regulations and any other requirements to which we subscribe;
- Reduce material and energy consumption wherever possible and practicable:
 - Reduce waste generation where practicable.
- Inform our customers and suppliers of our commitment to reducing our environmental impact.

Progress against these objectives and targets will be monitored by:

- Carrying out environmental impact assessments.
- Monitoring the products we use and how we use them.
 - Constantly monitoring the way we operate.
